Thank you for a truly inspiring seminar - I have never before sat through a 2-day talk without a single moment of boredom, irritation, bewilderment or thoughts of the outside world! I would have travelled a long way for it, I can't believe how lucky I was that it was held in my home town....!

I just wanted to tell you how much I enjoyed your workshop. It was refreshing to hear about the success you've had with acupuncture alone, without adjunctive herbal treatments. As you know, in California we are licensed in both acupuncture and herbs, and I often feel that acupuncture is reduced to "the ugly stepsister" of herbal medicine. I also liked hearing your common sense approach to treatment at home--moxa, press tacks, acupressure, etc. I agree that the cost of frequent treatments is often prohibitive for the average person.

Again, thank you for your passion and willingness to share your ideas with us.

I attended your seminar in San Diego this past weekend and just wanted to let you know how much I enjoyed it. I feel like I have come away with so much valuable information to share with my patients in my practice. I am really excited to apply what I have learned from you! Thank you for being so generous with your time and knowledge.

I attended your Acupuncture in Pregnancy and Childbirth seminar in Brighton in England. I wanted to say that I found the lecture extremely inspiring and very practical – the answers to the questions were very concise and you provided a lot of information and helpful advice throughout the lecture. I also found the videos worked really well to help us see what really happens!

I went to your seminar over the weekend in Brighton. I had to email you to let you know how much I enjoyed the 2 days! I was feeling quite low about my acupuncture work & felt I was losing the spark. I feel totally energised, positive and enthused after your seminar. Just hearing again how fantastic acupuncture can be & how we can benefit pregnant women in a real time of need!

I would like to thank you again for the learning experience I had the two days in Breukelen!

The handouts are fantastic, and will remind me time after time of your lessons!

I found your presentations very informative and professional, and was very impressed at how well you managed to hold the floor, and keep clear to your path! Great job. I

thoroughly enjoyed it, and now feel so much more confident in my own development of this interest.
